DARREN OLIVER

Group Manager Procurement, Glencore

Darren Oliver is Group Manager Procurement for Glencore Coal Assets Australia, one of the world's largest global diversified natural resource companies and a major producer and marketer of more than 60 commodities that advance everyday life. Darren has over 30 years' experience in the mining industry, in both commercial and procurement roles. Prior to the merger of Glencore & Xstrata in 2013, Darren held various procurement roles within the group, including Group Manager Global Procurement for Xstrata Coal, and Group Supply Manager for the Oakbridge Group, which is now a subsidiary of Glencore Coal.

In his current role, Darren is responsible for the planning, development, execution and management of procurement & contract strategies for major commodities and services for Glencore's Australian coal business.

DR SHARNA GLOVER

CEO, Imvelo

Sharna is the co-founder and CEO of Imvelo. She is an experienced executive leader with a twenty-year track record of successfully leading step-change technology programs. Sharna is experienced and passionate about delivering significant improvement to safety and productivity in all resource sectors through embedding technology within business plans. Sharna was most recently the Program Director of BHP's Autonomous Operations Program which is developing the next generation in robotics and precision resource extraction for the mining industry. Sharna was managing a global team and a demonstration test bed in Arizona US.

Sharna holds a first-class double degree in Chemical Engineering and Science, as well as a PhD in Engineering. She is an Industry Leader Representative of Australia's Space Agency, the co-chair of Queensland Robotics Cluster, and is an Advisory Board Member at the University of Queensland Chemical Engineering School.

JASON ECONOMIDIS

Chief Operating Officer, South32

Jason is an experienced mining executive, having worked in the sector in Australia for more than 25 years. He joined South32 from Orica, where he held the position of Vice President Coal. His responsibility at Orica covered 25 mining operations across Queensland and New South Wales.

Jason has held other senior positions in the industry such as General Manager of large Australian coal operations with Peabody, with Vale Coal Australia as Chief Operating Officer, and with BHP as General Manager of Goonyella-Riverside, Caval Ridge and Vice President Health, Safety, Environment and Community for BHP. Jason holds a Master of Business Administration (Executive) from the Australian Graduate School of Management.

ANDREA RUTLEY

Head of Technical & Analytics, Anglo American

Andrea Rutley is the Head of Technical & Analytics for Anglo American's Steelmaking Coal business.

Her current role as Head of Technical & Analytics is to combine the technical operating functions of mine planning, gas & ventilation, governance, geotechnical engineering, geoscience and data analytics to drive operational performance through risk reduction, planning effectiveness and resource delineation to ensure future growth for Steelmaking Coal.

With over 25 years in the mining industry, Andrea has worked in geophysical exploration for base metals, engineering and environmental companies and held various technical and leadership roles within the coal industry. Since joining Anglo American in 2011, Andrea has held the role of Head of Safety and Sustainable Development and has been the Manager of Exploration and Head of Geoscience, where she has managed exploration programs and led multi-disciplinary geoscience teams across Australia, South Africa, Botswana and Canada to achieve technical excellence.
